Additional information

In the future, all registered participants will receive instructions for how to enter the virtual meeting room. Included with those instructions will be how to run the "Setup Wizard." At least 48 hours prior to the meeting you should run the "Setup Wizard" to ensure you can fully participate in the meeting.

The virtual meeting room provides audio capabilities for all participants; however, headphones and a microphone will be necessary to use the audio features. Being able to use the audio capabilities will be important, especially for the "Who's Who, What's New?" portion of the meeting.

The agenda for the meeting will be available during January.
